

HY.61

Penetrating spray

Application areas

- loosening of stuck or seized up screw connections
- cleaning of machine elements while also functioning as preservation agent
- dehumidifies regulators, plugs, distributors.

HY.61 is a universal quick rust remover which has exceptional rust-proof and cleaning properties, lubricates well and also takes over preservation tasks.

So if you are using HY.61, you get an excellent and economical 3-in-1 product for loosening, cleaning and lubrication.

Seized screws will be a thing of the past
– doesn't that sound wonderful?

Benefits

- extreme creeping capability
- very high dissolving capacity with use on corroded and unmovable stuck connections
- protects against corrosion
- lubricates well
- dehumidifies
